

**WE ARE
SPECIALIZED
IN EGGS**

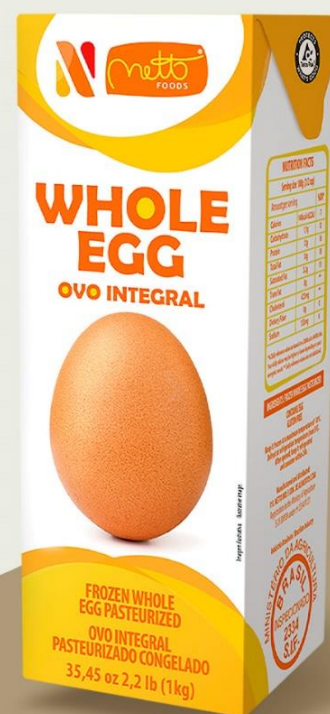

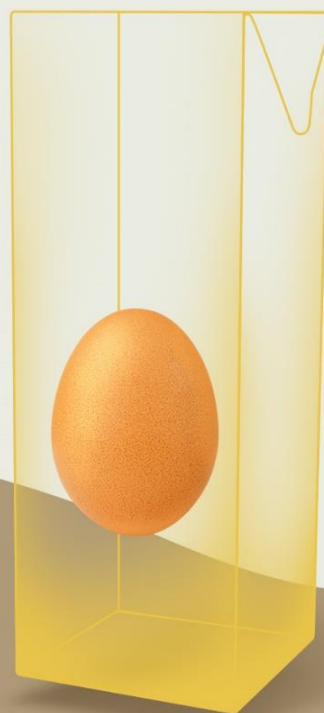

NETTO FOODS

The Brazilian company Netto Alimentos has been operating in the processed egg segment since 2000, in line with the highest quality standards required by the clients and regulatory bodies with 02 operating industrial units and the third one under development.

The plants process pasteurized, chilled, frozen and dehydrated whole egg, egg White and yolk, as well as special blends ordered by large companies on a daily basis.

In 2017, Netto alimentos obtained the Certified Humane Brasil, which accredits the company to invest with greater certainty in egg products of cage free poultry (cage free).

With the brand growth in the international Market, Netto Alimentos has been ruled by FSSC 22000 – Food Safety System Certification, acknowledged by Global Food Safety Initiative (GFSI), aiming at food safety throughout the entire supply chain.
